

**Public Forum: Cornwall's Inventory of Natural Resources
Wed. April 29, 2015 – 7 pm at the Cornwall Town Hall.**

Fellow Cornwall Land and Wildlife Lovers:

Please come and join us at the Public Forum *to* see and hear about Brett Engstrom's findings in Cornwall: the waterways, forests, fields, special creatures, and flora and fauna.

As you know, he's been doing our town-wide natural resources inventory over the past 1 1/2 years, and is coming to report on the valuable ecological features, complete with maps, photos and discussion. If any of you came to his first talk, it was fascinating, and this promises to be the same, with even more info! We all love and cherish our Cornwall landscape, and this Forum will help us learn more about our town's special natural features, and how we can honor, protect and preserve them for present and future generations.

For more info, please contact Bethany Barry Menkart (462-2000) or Marc Cesario (462-3759)

**Public Forum: Cornwall's Inventory of Natural Resources
Wed. April 29, 2015 – 7 pm at the Cornwall Town Hall.**

And, of course, we'll have local delectable edibles as well!
