**CORRESPONDENCE REVIEW**

- **Dave Anderson's letter** regarding closure on report of alleged septic discharge  
pipes on Route 30
- **November salt mitigation report** – looks good
- **VTrans** - reminder of statutory obligations of reporting special weight limits for  
highways and bridges – 16,000 pound limit on any bridge with a wood floor
- **Communication from Shoreham Selectboard** of approval of plans for Cornwall  
– Shoreham joint purchase of an excavator.
- **Letter from Cornwall auditors** – questioning whether two auditors who have  
other roles in the Town, might have incompatible offices. Katie Gieges is here to  
discuss with the board. Conclusion: There is no conflict of interest in the dual role  
of auditor and emergency management director nor in the dual role of auditor  
and highway department truck driver. The board does not have problem with  
either person being an auditor.

**PUBLIC COMMENTS** - none

**TOWN CLERK / TOWN TREASURER'S REPORT** – Sue Johnson

- **Town Class II road grant: \$ 115, 288.68** - paperwork submitted

- **Newsletter and Town Report** - Sue has been working on these, will be in touch  
as she needs things from the board, and will circulate the warning for board  
review.

- ***VLCT on the question about voting on the Lavalley Store issue*** - advised Cornwall that it is currently a floor voting town, so all public questions need to be voted on from the floor. No one can petition to put one issue on the ballot while it is a floor voting town. Cornwall could be changed from a floor voting town by the voters at a future date, following due process of Town Meeting procedures.

**ROAD COMMISSIONER'S REPORT** – none

**OLD BUSINESS**

- ***Selectboard Report for the Town Report*** – approved
- ***Lavalley Store Article*** – approved wording of the article as drafted by Judy. Sue will talk with Cy Tall in terms of her role as moderator during discussion of the Article.
