

Community Values Mapping Workshop

Cornwall Elementary School
Wednesday, October 12, 2016
7:00-9:15 PM

Join us for a lively discussion of what you and others value about living in Cornwall. Share what's most important to you. Our thoughts will be recorded on large town maps and will help guide future town planning.

The workshop will be led by Jens Hilke, Conservation Planning Biologist, Vermont Department of Fish and Wildlife.

Sponsored by the Cornwall Planning Commission, the Cornwall Elementary School, and the Cornwall Conservation Commission.
