To: "LaRose Surveys, PC" <larosesurveys@gmail.com>

This Is Dave Berno Current Fire Chief of Cornwall Vermont.

On 10/5/2022 I made a drive up to the end of Bardon Drive with a fire truck and found the road to be adequate for fire apparatus and see no problem with the proposed sub division. I would however like to see the trees cut back and trimmed up on the entire road. Large tree branches were hitting the sides and top of our truck and with any snow on the branches would make the last lot unaccusable for fire apparatus. Another recommendation would be a turn around near the end. The road currently has a large circle at the end but if a car was parked in the circle we would have no way to turn around.

Thanks

Chief Berno
