Re: Subdivision Application

Dear Mr. Candido:

After meeting with you and reviewing the subdivision laws and also viewing the town map showing location of your parcel of land, the board has voted to approve your application for subdivision. The board understands that you are under contract with Mr. Martin for purchase of the parcel of which he has purchased one-half and that in three years he will purchase the second half. We assume you understand that no further action can take place on the second half of the parcel without approval of this board.

Sincerely,

Cornwall Planning Commission
